FOR SALE

Price - \$35,000 per unit

Fraco 20K Choice of units all in excellent condition

Year Manufacture	2004 / 05	Power	Gas Honda 13hp
Capacity	10,000 lbs Single or 20,000 lbs Twin	Lifting Speed	7 ft/min
Platform length	48 ft single 136 ft Twin	Platform Height	50 ft

Specially designed to provide fast and easy setup and move on low-rise jobs (less than 45 ft high), the Fraco 20K is also a great choice on high-rise!

With an excellent lifting capacity of 10,000 lbs (single) 20,000lbs (twin) and a lifting speed of 8 ft per minute, the FRSM 20K will reach 48 ft of length in single mast configuration and 136 on a twin, giving you more wall coverage. Fraco keep it simple and easy to use. Available with weather protection, crane arms and additional mast at extra cost.
