

Mastclimbers LLC

SUPPLIERS OF NEW AND USED MASTCLIMBING WORK PLATFORMS, CONSTRUCTION
HOISTS AND TRANSPORT PLATFORMS

EQUIPMENT AVAILABLE FOR SALE

In these economic times it is always a buyers market and today is no exception, we have machines available from customers and from our own fleet that represent excellent value and we know that we need to be competitive, but most importantly we know we have to add value by adding service and support as and when needed.

Contact us for all of your mastclimbing needs.

Mast Climbing Work Platforms.

With over 100 units in our own sales fleet we are sure we can provide you with the right machine that matches both your application and your budget.

The Hek MSHF is a trusted machine known for its reliability and build quality. We have a number of units both customer owned and from our own fleet that are looking for a new home.

The Fraco 8000 is a great masonry unit with a big capacity and great configuration possibilities. A free standing height of 38 ft is possible with the free standing base.

AS Climbers Mini mast is just what the name suggest, a small light-weight compact machine that can be easily installed in some difficult areas. We have some of the compact MC11 units and the slightly larger MC22 available separately or as a complete package

Fraco ACT 8 - These units are versatile and flexible, with an 8,000lb capacity these are a true work horses. Options include gas, diesel or electric, platform lengths up to 65 feet on a single mast and a range of accessories to match.

For any of the units above or any others we have available we can provide you with a deal. Just contact our office below.

Transport Platforms.

Why buy expensive construction hoists when you don't need to. The new transport platform offer 14ft long loading platforms (ample room for dry wall) up to a 3,000lb (1,500kg) capacity at a fraction of the price.

At lower levels the transport platforms lower speed (35ft / minute) doesn't effect its efficiency. Under the new ANSI standard 92.10 the platform can be used as either a material lift or as a man and materials lift (subject to local regulations).

We have several makes and models available and these can be supplied for sale or for rental to meet your budget. For more details please contact our office below.

Prices start from \$36,750.00

Construction Hoists.

Available for sale or rent we offer a number of construction hoists of various makes. The Construction hoist has been a high-rise construction industry standard. Most units are available with a 6000 lb. capacity car, which can accommodate up to 30 people and hold large material loads. The hoist can be configured for left or right-handed, single or dual car operation.

We also have material hoists available, small compact unit with an 800lb capacity that can easily be installed on any site.

For any assistance please contact our office.
