

ACCESSORIES

OUR RENTAL FLEET

OVERHEAD PROTECTION

Our overhead protection solutions exist to put your safety first. Solid, quick to erect and thoroughly tested, our overhead protection options will shield your construction team from unexpected debris raining down from above.

CRANE ARM

Crane arms can be secured to our mastclimbers and lifts to help you shift bulky loads whilst elevated. They take the strain, and alleviate potentially dangerous situations. With a crane arm in place you can lift more with ease.

WINTER ENCLOSURE

Winter enclosures are put in place to protect construction workers carrying out work at height from the full force of the elements. They allow you to continue a job despite bad weather, saving money by not losing out on any work time.

SHORING

Shoring is put in place to ensure mastclimbing equipment is erected securely and safely. Our shoring solutions are wide-ranging and comprehensive, and can be tailored to every specific job individually. Whatever the site, we have the right tools for the job.

Our promise

All of our equipment is fully checked and serviced prior to delivery. Service and maintenance is carried out according to a manufacturer's guides. We strive to keep breakdowns to a minimum and when they do occur, we aim to mobilize within 24 hours.

We ask that you complete your daily checks before operating the unit and ensure that all areas are greased as per the manufacturer's recommendations. We also request that you make the units available for any scheduled maintenance during the rental period.

Expert service

At Mastclimbers LLC we are passionate about solving your construction dilemmas. With decades of experience, we know exactly how to address the needs of each and every client we work with.

Mastclimbers LLC can provide a wide range of accessories to accompany your rental. We offer a bespoke service to every client. Whatever accessory you require we want to help, from stock we can supply overhead protection, crane arms, winter enclosures and shoring solutions, we can ensure that your rental from us includes everything you need for a successful project.

But it doesn't stop there. Whatever machine you decide to rent from us, whether your rental is for a commercial or industrial application, we have a huge range of optional extras to suit. These include gates, permit applications, monthly service contracts, common towers, run backs, shoring, steel plate mounts, loading docks, and solutions for special applications.

Training

At Mastclimbers LLC we offer comprehensive and thorough training aimed at a wide-range of skill sets. Our top quality training programs are verified by the International Powered Access Federation (IPAF), and includes installer training for mastclimbers, hoist and mastclimber operator training, rigging and handling courses.

Special Projects

Mastclimbers LLC welcomes all special projects, regardless of the difficulty of your project we will endeavour to find a viable and economic solution to any vertical access issue you have. Finding solutions is our business, no challenge too great, no project too small.
